

Delaware Valley**Coalition Vows
To Bar Building
Of I-95 Ramps**

Armed with petitions with 4,000 signatures, a press release, and a threat to file a lawsuit, the Neighborhood Preservation Coalition on Thursday vowed to "go to the courts and the streets" to stop construction of the proposed I-95 expressway ramps in the South st area.

"The coalition has no interest in being the innocent victim of a City Hall-Harrisburg feud," said a statement by the coalition issued at a press conference.

The statement was a reference to city officials' criticism of Gov. Milton Shapp for promising the coalition to "review the ramp design" of the proposed two-mile expressway link on the eastern edge of the city.
